## A. Mission and Purpose

This is an exercise for City Council to create a living document and can be revised as we make progress in our city. The mission is a statement addressing goals and what drives our decisions. The purpose statement is the overarching reason we exist and how we impact those we serve. The purpose statement works hand in hand and will drive the mission of the city.

Please use the space below to write out your ideas and bring to our first Council Priority Session. This will be used to collectively build our mission and purpose as a city council. These values and goals will be used to measure our decisions in the future.
