Executive Summary

Development Impact Fees are fees imposed by local governments on new development projects to finance the acquisition, construction, and improvement of public facilities and infrastructure needed to serve those projects. California state law requires local agencies to prepare a report on the status of their Development Impact Fee (DIF) program on an annual basis and make additional findings every fifth year. This report meets the legal requirements for Fiscal Year (FY) 20-21 (July 1, 2020 through June 30, 2021) as well as the five-year report for FY 16-17 through FY 20-21.

Figure 1 – City of Hemet Welcome Sign

The City of Hemet (City) first established its DIF Program on January 23, 2001 with the adoption of Ordinance No. 1639 which revised and renumbered the City Municipal Code. The fees were established by Ordinance No. 1354 as a part of this revision. The dollar amounts of the fees were originally adopted on January 23, 2001 with Ordinance No. 1639. The fee amounts were last updated by Resolution No. 3837 on July 26, 2004 for non-residential property and Resolution No. 3981 on January 23, 2006 for residential property.

The most recent Nexus Study was prepared by TischlerBise, dated January 3, 2006. City Council adopted Resolution No. 3981, on January 23, 2006, which approved the Nexus Study methodology and amended Resolution No. 3837 as it related to DIFs for residential development projects. Per Resolution 3981, the rates for non-residential projects were not updated as it stated that the City Council shall, by separate and subsequent noticed action, consider adjustments to DIFs for commercial and/or industrial projects. The Valley Wide Facilities Fee Fund was authorized on August 22, 2006, and allocated 16.3% of all new park impact fees. The Public Meeting Facilities Fee is no longer collected.

The City of Hemet currently collects the development impact fees listed in the table below. The table also provides the fund that the fee is deposited into.

Fee	Fund Number
Public Meetings Facilities Fee	315
General Facilities Fee	316
Flood Control Fee (Storm Drainage Facilities Fee)	326
Bridges, Streets, & Traffic Facilities Fee	329
Law Enforcement Facilities Fee	331
Fire Facilities Fee	332
Park Development Fee	361
Valley-Wide Park Development Fee	362
Library Facilities Fee	363

Section 1 – Requirements of the Mitigation Fee Act (AB1600)

Assembly Bill (AB) 1600, commonly known as the Mitigation Fee Act, was enacted by the state of California in 1987 and created Section 66000 et. seq. of the Government Code and was amended by AB518 and Senate Bill (SB) 1693. AB1600 requires the city to report fee information annually and every fifth year. Within 180 days after the last day of each fiscal year, the City must make available the following information from the prior fiscal year:

1. Brief description of the type of fee in the account or fund.
2. Amount of the fee.
3. Beginning and ending balance in the account or fund.
4. Amount of fees collected and the interest earned during the previous year.
5. Identification of each public improvement for which fees were expended and the amount of expenditures, including the total percentage of the cost of the public improvement that was funded with fees.
6. An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.
7. Description of each interfund transfer or loan made from the account, including the public improvement on which the transferred or loaned fees will be expended, and when each loan will be repaid and the rate of interest the account will receive on the loan.
8. Identification of any refunds made once determined that sufficient monies have been collected to fund fee-related projects.

For the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the City must make the following findings with respect to any remaining funds in the fee account, regardless of whether those funds are committed or uncommitted:

1. Identification of the purpose to which the fees are to be put.
2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.
3. Identification of all sources and amounts of funding anticipated to complete financing in incomplete improvements identified as part of the City's annual report.
4. Identification of the approximate dates on which the funding referred to in Requirement 3 is expected to be deposited into the appropriate account or fund.

The City must make this information available for public review and must present it at the next regularly scheduled public meeting no less than 15 days after this information is made available to the public. This report is intended to satisfy the annual reporting requirements for FY 20-21 as well as the five-year report for FY 16-17 through FY 20-21. The City previously completed a five-year report in FY 15-16.

Section 2 – Annual Report

The following section provides information necessary to meet the annual reporting legal requirements for each impact fee fund. This includes a brief description of the fee, the amount of the fee, the beginning and ending balances, fee revenues collected, interest earned, and the expenditures on each project including the percentage that was funded with fees. It also includes a table summary of whether sufficient funds have been identified to complete future projects and the approximate date by which the construction of the public improvement will commence if sufficient funds have been identified. Any loans are also identified as well as any refunds from the account.

Fund 315 - Public Meetings Facilities Fee

Requirement 1. Brief description of the type of fee in the account or fund.

The Public Meetings Facilities Fee finances community centers and public buildings available for community use. This category of buildings differs from general facilities, which are facilities used by the City staff to undertake their municipal service duties. The Public Meetings Facilities Fee was originally established by Ordinance No. 1639, adopted January 23, 2001. The City stopped collecting this fee as of August 2007.

Requirement 2. Amount of the fee.

The Public Meetings Facilities Fee has not been collected since August 2007. Previously collected funds continue to gain interest and the City will use the remaining funds toward future projects identified in Table 1.

Requirement 3. Beginning and ending balance in the account or fund.

Table 1 summarizes the beginning and ending fund balances for the Public Meetings Facilities Fee for FY 20-21.

Requirement 4. Amount of fees collected and the interest earned during the previous year.

Table 1 summarizes the fees collected and the interest earned for the Public Meetings Facilities Fee during FY 20-21.

Requirement 5. Identification of each public improvement for which fees were expended and the amount of expenditures, including the total percentage of the cost of the public improvement that was funded with fees.

No project expenditures were recorded for Fund 315 in FY 20-21.

Requirement 6. An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.

Table 2 summarizes the planned future expenditures for Fund 315 and the anticipated construction start date. As additional funds become available, the City’s Capital Improvement Budget team will work on identifying and budgeting for eligible projects and will include the projects in future Capital Improvement Plan (CIP) budgets.

A transfer in the amount of \$195,618.45 was transferred out of Fund 315 during FY 20-21 to correct for the transfer in during FY 19-20 for Capital Improvement Plan (CIP) 5667 – Police Facility Security Renovation costs.

Requirement 8. Identification of any refunds made once determined that sufficient monies have been collected to fund fee-related projects.

There were no refunds made from this fund in FY 20-21.

Fund 316 - General Facilities Fee

Requirement 1. Brief description of the type of fee in the account or fund.

The General Facilities Fee finances general office or work facilities and equipment used by City staff to undertake their daily duties. The City first established its DIF Program and the General Facilities Fee on January 23, 2001 with the adoption of Ordinance No. 1639, which revised and renumbered the City Municipal Code. Resolution No. 3837, adopted July 26, 2004, established current fee amounts for non-residential property. The City Council adopted Resolution No. 3981 on January 23, 2006, which established current fee amounts for residential property as recommended by the Nexus Study dated January 3, 2006, prepared by TischlerBise. Per Resolution 3981, the rates for non-residential projects were not updated as it stated that the City Council shall, by separate and subsequent noticed action, consider adjustments to DIFs for commercial and/or industrial projects.

Requirement 2. Amount of the fee.

The General Facilities Fees for FY 20-21 are summarized in Table 3.

Requirement 8. Identification of any refunds made once determined that sufficient monies have been collected to fund fee-related projects.

There were no refunds made from this fund in FY 20-21.

Fund 326 - Flood Control (Storm Drainage Facilities) Fee

Requirement 1. Brief description of the type of fee in the account or fund.

The Flood Control (Storm Drainage Facilities) Fee finances street gutter facilities, inlets, and a pipeline network of storm drain lines which convey runoff to various smaller lines, creeks, aqueducts, and channels throughout the City. The City first established its DIF Program and the Flood Control Fee on January 23, 2001 with the adoption of Ordinance No. 1639, which revised and renumbered the City Municipal Code. Resolution No. 3837, adopted July 26, 2004, established current fee amounts for non-residential property. The City Council adopted Resolution No. 3981 on January 23, 2006, which established current fee amounts for residential property as recommended by the Nexus Study dated January 3, 2006, prepared by TischlerBise. Per Resolution 3981, the rates for non-residential projects were not updated as it stated that the City Council shall, by separate and subsequent noticed action, consider adjustments to DIFs for commercial and/or industrial projects.

Fund 329 – Bridges, Streets, & Traffic Fee

Requirement 1. Brief description of the type of fee in the account or fund.

The Bridges, Streets, & Traffic Fee (previously the Road Facilities Fee) finances highways, roads, bridges, and traffic signals. The City first established its DIF Program and the Bridges, Streets, & Traffic Fee on January 23, 2001 with the adoption of Ordinance No. 1639, which revised and renumbered the City Municipal Code. Resolution No. 3837, adopted July 26, 2004, established current fee amounts for non-residential property. The City Council adopted Resolution No. 3981 on January 23, 2006, which established current fee amounts for residential property as recommended by the Nexus Study dated January 3, 2006, prepared by TischlerBise. Per Resolution 3981, the rates for non-residential projects were not updated as it stated that the City Council shall, by separate and subsequent noticed action, consider adjustments to DIFs for commercial and/or industrial projects.

Fund 331 – Law Enforcement Facilities Fee

Requirement 1. Brief description of the type of fee in the account or fund.

The Law Enforcement Facilities Fee finances law enforcement facilities, including law enforcement stations, vehicles and vehicle equipment, officer apparel and equipment, and communications and electronic equipment. The City first established its DIF Program and the Law Enforcement Facilities Fee on January 23, 2001 with the adoption of Ordinance No. 1639, which revised and renumbered the City Municipal Code. Resolution No. 3837, adopted July 26, 2004, established current fee amounts for non-residential property. The City Council adopted Resolution No. 3981 on January 23, 2006, which established current fee amounts for residential property as recommended by the Nexus Study dated January 3, 2006, prepared by TischlerBise. Per Resolution 3981, the rates for non-residential projects were not updated as it stated that the City Council shall, by separate and subsequent noticed action, consider adjustments to DIFs for commercial and/or industrial projects.

Requirement 2. Amount of the fee.

Section 4 – Fiscal Years 2016-2017 through 2020-2021 Five-Year Report

In accordance with Government Code Section 66001, this section addresses the five-year requirements with respect to any remaining funds in the DIF accounts, regardless of whether those funds are committed or uncommitted for FY 16-17 through FY 20-21. The City last completed the Five-Year Report in FY 15-16. The following section provides information necessary to meet the legal requirement for the Five-Year report for the DIF funds.

Requirement 1. Identification of the purpose to which the fees are to be put.

The purpose of the DIFs imposed and collected on new development within the City during FY 16-17 through FY 20-21 was to fund public facilities that are needed to serve the new development within the City as identified in the City's adopted Development Impact Fee Study. The most recent City of Hemet Development Impact Fee Nexus Study was prepared by TischlerBise, dated January 3, 2006. City Council adopted Resolution No. 3981, on January 23, 2006, which approved the Nexus Study methodology and amended Resolution No. 3837 as it related to Development Impact Fees for Residential Development Projects. Each fee had to undergo rigorous nexus requirements that: identify the purpose of the fee; identify the use to which the fee is to be put; determine how there is a reasonable relationship between the fees use and the type of development project on which the fee is imposed; determine how there is a reasonable relationship between the need for the public facility and the type of development project on which the fee is imposed; and determine how there is a reasonable relationship between the amount of the fee and the cost of the public facility attributable to the development on which the fee is imposed. The purpose of each fee is identified within Section 2 of the Annual AB1600 Report. Future Projects are Identified in the Nexus Study and Table 29 of this report.

Requirement 2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

As mentioned for Requirement 1, the most recent City of Hemet Development Impact Fee Nexus Study was prepared by TischlerBise; dated January 3, 2006. City Council adopted Resolution No. 3981, on January 23, 2006, which approved the Nexus Study methodology and amended Resolution No. 3837 as it related to Development Impact Fees for Residential Development Projects. The 2006 Nexus Study methodology illustrated the roughly proportional, reasonable relationship between the new development upon which the DIFs are charged and the need for the additional facilities by taking into account the additional residents and employees that will be generated by new development within the City and the need for additional infrastructure to accommodate growth. DIFs charged on new development are used to fund the additional facilities that will serve the residents and employees generated from new development. The 2006 Nexus Study developed the

relationship between the fee and the purpose for which it is charged and that relationship has still been deemed valid. The City should consider an update of the fee program in the future due to the time that has passed since the fees were adopted.

Requirement 3. Identification of all sources and amounts of funding anticipated to complete financing in incomplete improvements identified as part of the City’s annual report.

Table 28 summarizes the fund balance for each fund as of June 30, 2021, as well as the costs of the pending facility projects currently identified in the City’s Capital Improvement Plans. The future project costs by fund are shown in further detail on Table 29. Due to the fact that improvements are triggered based on the timing and location of development, improvements will be programmed as deemed necessary by the City. These improvements will be included in the City’s The City’s Capital Improvement Plan as they are identified and funding becomes available.

362	Valley Wide Development Fee	\$161,501.55	\$150,000.00
363	Library Facilities Fee	\$639,373.23	\$1,850,000.00
TOTAL		\$15,624,786.75	\$32,731,153.73

Requirement 4. Identification of the approximate dates on which the funding referred to in Requirement 3 is expected to be deposited into the appropriate account or fund.

Table 29 lists the public improvement projects within each DIF fund that are anticipated to be constructed using the DIF funds. Anticipated construction start date is listed when available. Due to CIP priority shifts due to the uncertainty of the timing and location of new development, anticipated construction times vary and may be listed as to be determined (TBD) until additional information is gathered and priorities identified.
